EXAMINER'S AMENDMENT ✓

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Matkin on March 14, 2004.

The application has been amended as follows:

In claim 66, line 5, "carbon containing" has been removed.

In claim 66, line 10, after "modify" and before "shape", --the-- has been inserted.

In the Specification, under Related Patent Data, after "filed October 11, 2002," -- and is now U.S. Pat. No. 6,649,469,-- has been inserted.

The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination, fails to anticipate or render obvious, the method including the limitations of patterning the carbon containing masking layer to comprise a plurality of circular shaped container openings therein having minimum diameter of less than or equal to 0.20 micron, and plasma etching the container forming layer through the masking layer openings using conditions effective to both a) etch the masking layer

to modify the shape of the masking layer openings from circular to having at least four straight line segments of at least 2 nanometers long, and b) form container openings in the container forming layer of the modified shapes in combination with the other limitations of claim 66.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
